3. **RESOLUTION NO. 10-74, APPROVE AN INTERLOCAL COOPERATION AGREEMENT WITH SALT LAKE COUNTY FOR PUBLIC WORKS SERVICES CONSISTING OF CHIP SEALING CERTAIN STREETS IN WEST VALLEY CITY**

City Manager, Wayne Pyle, discussed proposed Resolution No. 10-74 which would approve an Interlocal Cooperation Agreement with Salt Lake County for public works services consisting of chip sealing certain streets in West Valley City.

Mr. Pyle stated that in recent years, Salt Lake County had applied chip seal on a number of City streets and the quality of work had been very good. He also stated Salt Lake County had agreed to do the chip seal for \$3.42 per square yard, which was a decrease from last year's \$3.60 per square yard, which cost compared favorably with prices of private contractors.

The City Manager indicated chip sealing would be the majority of the pavement management program on major streets in 2010, as there would be no pavement overlays. He stated chip sealing was a preventative maintenance strategy similar to slurry seal. He explained with both chip seal and slurry seal the road received a new, waterproof wearing surface. He also explained chip seal utilized larger, pea-sized gravel for aggregate, which wore better than slurry seal on the major roads. He indicated traffic control on busy streets was easier with chip seal because traffic could drive on the chips immediately after being spread. He explained a final asphalt fog seal held the chips in place and gave the road a fresh black surface. The County agreement also included re-striping these roads.

Mr. Pyle reported the proposed agreement called for the following streets to be chip sealed:

6. COMMUNICATIONS:

A. JORDAN RIVER MARKETPLACE PLAZA ICON DESIGN AND FUNDING DISCUSSION

City Manager, Wayne Pyle, reminded that after the last presentation of information by Ascent Construction regarding the proposed Jordan River Marketplace project, the City Council had requested to schedule time for discussion regarding the plaza icon design and funding.

The City Council reviewed the drawings as submitted by the developer, Ascent Construction, at a previous Study Meeting. A philosophical discussion followed regarding the need to reinvest funds from a property purchase in this gateway area of West Valley City in order to make it special and make a statement about the City.

The City Council further discussed issues regarding vision and/or ideas about design and cost of the proposed bridge across the canal on the property. Also discussed were the following summarized topics: the cost to bury power lines; trail system along the Jordan River with connection to the Utah Cultural Celebration Center (UCCC) property; possible use of some undeveloped property on the site for passive park space and possible cost of improvements such as small pavilions, picnic tables and playground equipment; clean property along the edge of the Jordan River edge and leave natural; location of a new road; possible consideration of something such as a campground that could be a revenue source for the City; the need to also consider the Jordan River master plan and keep some of the property in its natural state; need to provide additional parking for UCCC as some would be lost when the 1200 West connector road was constructed; the cost of a “Harker’s Crossing” suspension bridge over the Jordan River; possible cobblestone or brick plazas with planter boxes; possible location of Chinese Gate and a suggestion it should be part of the UCCC rather than Jordan River Marketplace; ideas for historical monuments; some improvements could be funded by the Jordan River Commission such as boat launch and/or trails; suggestion that the icon could be a fountain or reflecting pond rather than the design presented by the developer; the icon could be the piece that made the project “sink or swim” as it would be part of the identity of the area; the need to have something to draw people to the area; park, trail and improvements along the River would bring more people to visit the marketplace; the River should be the focal point and Council do whatever possible to enhance that; improvements should serve residents of the community; desire to make this a great place and

amenities need to set it apart from other places in the Salt Lake Valley; icon could do both and provide something to do by being an interactive attraction and also identify the place; studies should be completed on whether this area would support a hotel and/or other types of businesses; need to have something that would entice businesses to move and relocate there; the cost of items previously mentioned above on the “wish list” and need to prioritize those items.

Upon further discussion regarding the above, the Council expressed a consensus of priorities as follows:

1. Bridge
2. Power lines
3. Parking lot
4. Park
5. Icon/Attraction
6. Trail
7. Over Jordan monument

After further discussion, the City Council expressed agreement that an icon needed to be more of an attraction than a static icon.

City Manager, Wayne Pyle, stated all suggestions and ideas expressed by the City Council would be related to the developer and a proposal would thereafter be presented to the City Council.
